Subject: Summary of Call with IN about Assumption

Hi,

The call with IN yesterday went well. Basically, they have been instructed to assume the 404 program and have a number of folks working on the legal side (we asked them to coordinate with Reg Pallesen) and this was a call by the programmatic staff as they are trying to figure out what this means for them and what they will need to do, prior to, during and post assumption.

Currently IN only has an isolated wetlands program and a 401 cert program. Thus, they will likely be incorporating by reference much of what they need for authorities and regs. From the Federal regs and statute. Easy for us to review and it may put them on a fast track to approval, but they are at the very, very initial stages.

They really are not sure about how to proceed, R5 and I will have another call with them where we will present my 101 Assumption PPT with them in the next two weeks to help clarify basics for them.

Current target is package in 2020.

No action necessary from you all yet, but will keep you in the loop when and if we get to a point that we need to start reviewing language of any sort.

Have a good weekend.

Kathy Hurlid
